M	<p><b>Read the passage and answer the questions.</b></p> <p>In 1998 the Rover company's Land Rover, one of the most famous cars in the world, celebrated its 50<sup>th</sup> birthday. But not many people know that its success was a surprise to the company. The idea was born when the Wilk's brothers, who lived on the Welsh Island of Anglesey, wanted a cheap but strong vehicle to travel around their farm. They copied the design of the American "Willy's Jeep". At that time the Rover car company had problems. In Britain after the war, people did not have enough money to buy Rover's luxury cars, so the company decided to use the Wilk's brothers' idea to make a little money for a few years.</p> <p>Cars are usually made of steel but this was very <u>costly</u> than, so Rover used aluminum, which was cheaper. There was a lot of aluminum because war planes were made of it. The design was very basic and uncomfortable, but strong – "a tractor with passenger seat!" When the first Land Rover was shown to the world at the Amsterdam Motor show in 1948, it was an instant success. It was perfect for farmers and building companies because it could go to places where no other car could go. Because of Land Rover, the Rover company became stronger and started producing luxury cars again. They listened to the customers' idea, and made changes to the design in 1958, 1972 and 1983. It became more comfortable and safer, but could still take you over fields, up mountains, into rivers and across deserts.</p> <p>42. The Land Rover was first produced in .....</p> <p>a. 1948                      b. 1958                      c. 1972                      d. 1998</p> <p>43.
